Determine Tournament/Competition Positions:

 - Determine Low Net (1, 2, 3, & 4) as applicable.

Determine GOY Points:

Points are awarded in accordance with GOY Protocols (without regard to ties).

Determine Tournament/Competition Pay-Outs:

- No Player can win both low net and low gross payout (unless there is an extremely complicated set of ties in Gross & Net. In this case the Committee will review the scores and develop the most equitable Pay-Out possible.)
- If there is a tie score for Low Gross, the Low Gross pot will be split, unless either player would win more as a Net Pay-Out.

OPTIONAL TOURNAMENT DAY CONTESTS

SIDE GAMES THAT ARE DIVIDED INTO FLIGHTS ARE NOTED BELOW

Players compete during each tournament by declaring the side games prior to the tournament. You must register and pay to win.

Marathon KP: A par 3 hole will be designated by the Tournament Committees. This is a season long contest, available at Tournaments/Competitions. The objective is to be closest to the hole at the season's end. Only first tee shot counts. At season's end, the three players closest to the pin will split the pot as follows:

	Weekend	League
Closest	50% of pot	50% of pot
Second closest	33.3% of pot	33.3% of pot
Third closest	16.6% of pot	16.6% of pot

Special Note: If at any time a shot comes within 12" of the hole, the contest ends, the pot is divided between the three players closest to the hole and a new contest is started.

Inside the Pin: A par 3 hole will be designated by the Committee as the Inside the Pin KP. The pot is divided among all the competitors placing their 1st tee shot within the length of the pin as measured from the edge of the cup. If no ball is "Inside the Pin", the pot carries over to the next Tournament/Competition. If it carries over to the last Competition/Tournament, it becomes a KP.

KP: The competitor hitting his first tee shot "closest to the pin" wins the entire pot. If no ball is on the green the pot carries over to the next Tournament/Competition. All KP/Inside the Pin information must be entered on the KP Marker before the player tees off on the next hole. Failure to enter information results in forfeiture of any claim to that KP side pot."

Deuces Wild: All competitors shooting a **gross two** or better on any hole splits the pot. A player will get paid for each deuce scored. If there is no deuce the pot carries over to the next Tournament/Competition.

Better Nine of Flight: The player with lowest net score from front nine or back nine wins the flight pot.

Zero Putts: All competitors holing a shot from off the green spilt the pot. A player will get paid for each zero-putt scored. If there are no zero putts the zero-putt pot carries over to the next Tournament/Competition. If there is not a zero-putt competition in the next tournament, the carryover pot is added to the Deuces pot. If there is no Deuces competition in the next tournament, then the carryover is added to Better 9 pot.

Side Pot Carry Overs: All Carry-Overs after the last Competition/Tournament will go to the Charity.

All side pots will be paid in Cash rounded down to the nearest dollar.

PACE OF PLAY

In consideration for all members, five-somes are not allowed during tournaments. The Club's goal for all tournament rounds is 4 hours and 20 minutes (or less) and a lag time of 10 minutes (or less). Play ready golf and we all will enjoy the game more. The Pace of Play Committee will 1) Track each group's start and end times, 2) Compute each group's total playing time and lag time behind the group in front, 3) Prepare and distribute a Pace of Play report. The Tournament/Competition "Official" score card has Start & End Times - remember to include your "times" on the tournament scorecard! The club reserves the right to penalize individuals or groups for unduly slow play in accordance with established "Pace of Play" policy.

Remember the Course Marshall is just doing their job.

How to play golf safe and faster

As most of you know, slow play is the number one reason most golf courses have seen their rounds go down. Nobody wants to have to endure a 5+ hour of golf. Observations of a Rule Officials (100's of tournaments), the following are some proven ways to take minutes off a round of golf.

- Go directly to your ball and prepare to hit it, remember in stroke play it is not against the rules of golf to hit out of turn. When it is clear and safe, HIT THE BALL.
- If a player has a lost ball or is looking for a ball in a hazard, they only have 3 minutes. Let the player look for their ball and you go hit yours, then come back and help the other player.
- Power carts actually slow play. When riding in a cart, have the driver of the cart drop you off at your ball, take a few clubs and let the driver go to their ball. You will be surprised how much time this saves.
- The Putting Green is another area that wastes a lot of time. Limit the amount of times you mark your ball, finish short putts. Whoever is ready to putt, putt the ball. Does not matter who is away in stroke play.
- The Teeing Ground. Whoever gets there first and it is clear to hit, please hit your ball. Does not matter who hits first in stroke play.
- Place your bags and carts between the green and the next teeing ground.
- Write down the scores of the hole just finished at the next teeing ground.
- Use the Provisional ball rule 18; it is there to speed up play.
- The USGA recommends that you take no more than 40 seconds to hit a ball or putt a ball, 50 seconds on the teeing ground. The time begins when it is safe to hit the shot. This time includes getting yardage and reading putts.

If we follow the above guide lines you will be surprised how much faster a round of golf can be. Your fellow competitors will be happy and so will management at the Golf Course.
